**Subject:** Microsoft Settlement

To whom it may concern:

Please allow Microsoft to settle with the United States!! This judicial farce has gone on long enough, and wasted far too much of the tax-payers' money. It is high time that the Department of Justice give a vote of confidence for the consumers and their ability to think for themselves, instead of allowing large Microsoft competitors to whisper in justices' ears. We are on the brink of a new year, under a new administration, it is time to let it go.

Sincerely,
